## Building Connections and Collaboration for Sustainable Ocean Management

### Centre for Marine Socioecology Showcase 2024

28 October 2024 | *lutruwita*/Hobart  
UTAS Sir Stanley Burbury Theatre,  
Sandy Bay Campus

Marine and coastal systems are changing rapidly, in ways and with consequences that impact all sectors. Sharing and (co-) developing knowledge across sectors can help us understand and navigate the changes ahead, even under uncertainty. Collaboration and integrated management is and will be central to ensuring ocean sustainability.

Sustainability | Sea Country | Climate Change  
Inter- and Transdisciplinarity | Partnerships  
Collaboration | Innovation | Adaptation  
Ocean Optimism | Integrated Management
